

Dear Professor Toennies,

Thank you very much for the wonderful celebration of your 95th birthday in Göttingen. It was a true pleasure and honor to be part of such a special occasion.

I still fondly remember the time I spent working on my Diploma and later my PhD thesis, especially the many hours taking data on the “Gurke” system. Those experiences remain some of the most formative and cherished of my academic journey.

It was also a great joy to see you again and to reconnect with so many former colleagues. Wishing you continued health, happiness, and all the very best.

With warm regards,

Jens Braun
